---

## REAL ESTATE

---

Delivering a unique real estate service has been the cornerstone of our growth. We fully understand that quality is of a high importance when it comes to delivering our services to our respective clients.

The approach to our services offered is to focus on our people. We believe that an effective operation is built by bringing together the best personalities for the job and empowering them with a valued brand, effective marketing, clear processes and cutting-edge technology. This, in turn, allows us to achieve our ultimate goal-to focus on the customer- successfully.

# SWIMMING POOL

Swimming Pool Construction and Maintenance: Keeping your pool clean and properly maintained is the key to enjoying it for years to come and this lies on our shoulder to make it happen. We took the responsibility to give your pool the adequate care needed. Aside from the fact that a dirty pool is embarrassing, it's also a sign that the water isn't exactly clean or safe. When we maintain your pool on a regular basis, it will sparkle and shine with crystal clear water.

If your swimming pool is neglected, dirt, debris, and grime can build up quickly. This causes harmful bacteria and germs to grow and multiply, which can make swimmers sick. The last thing you want is to experience an illness or infection as a result of swimming in your own pool!

A dirty pool can spread disease or cause skin and eye irritation. You don't want your friends, neighbors, or family members to become sick as a result of swimming in your pool!

We will clean the water and surrounding areas regularly to ensure that the water is safe and healthy for all to enjoy.

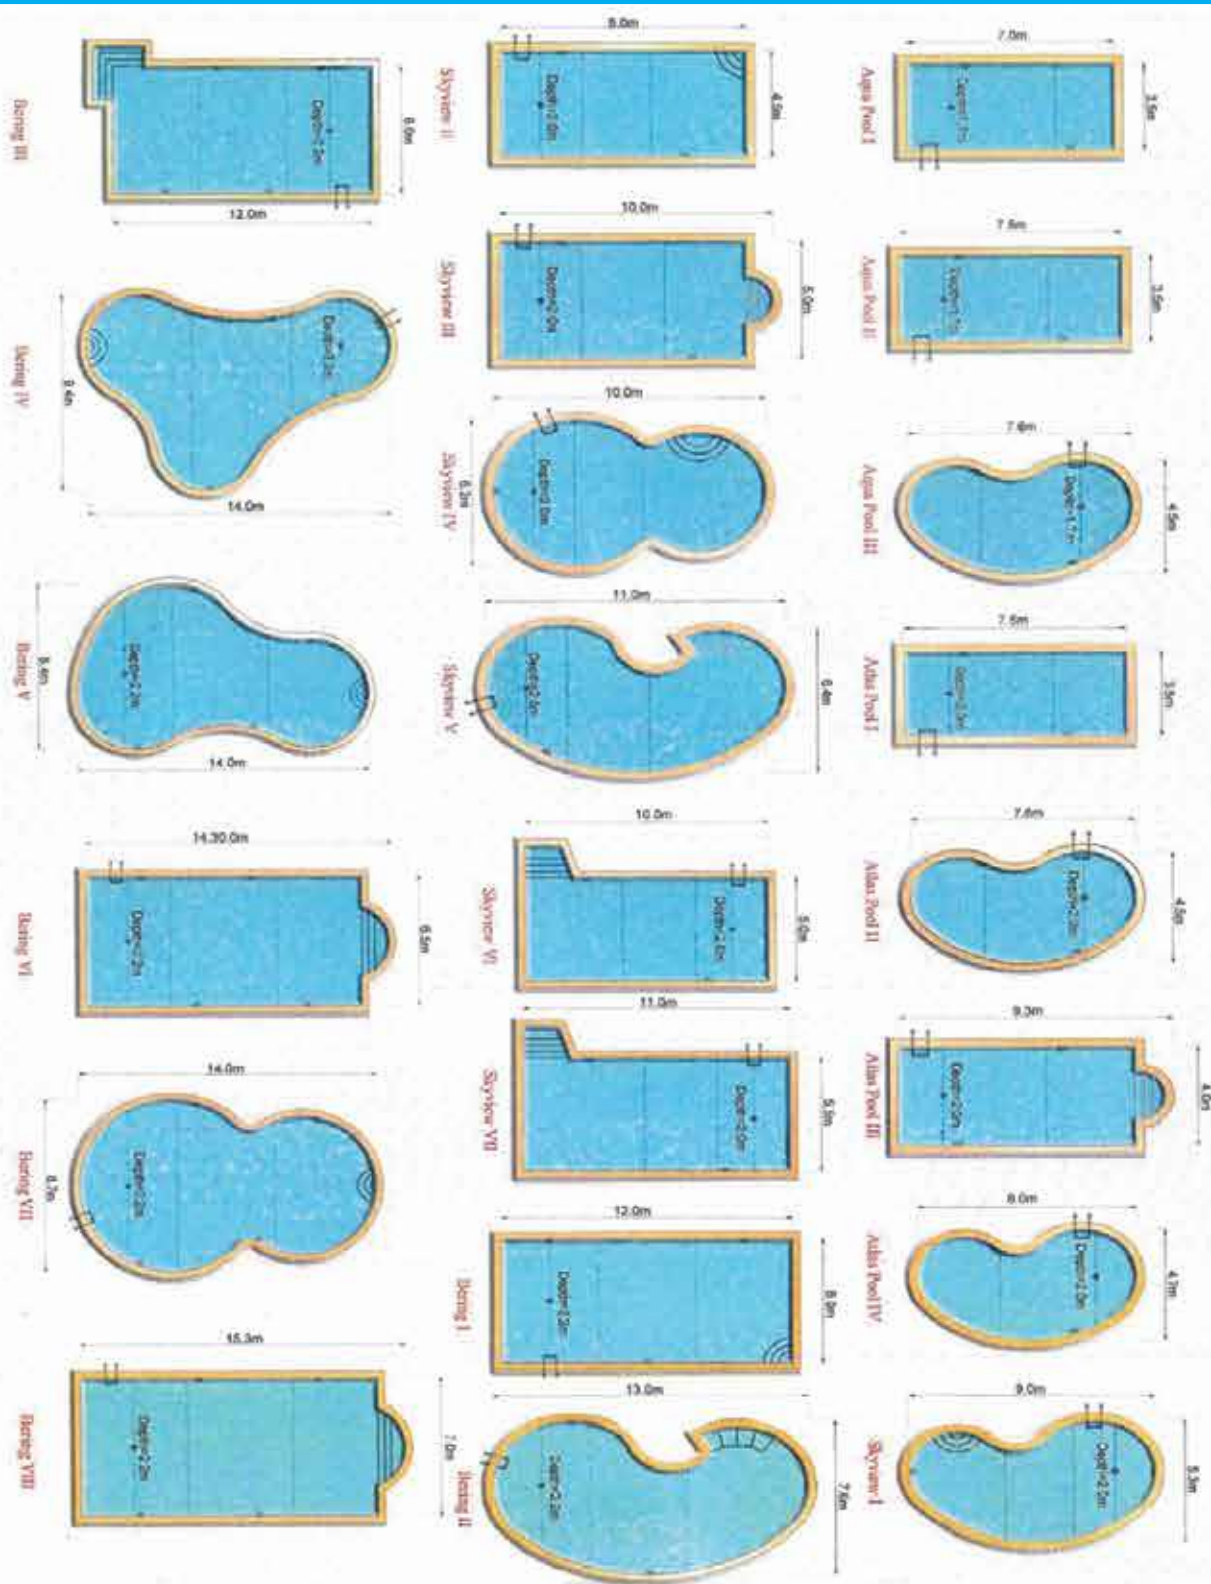

- We are professional in swimming pool repair and maintenance with over a decade experience. We service the swimming pool pump for adequate water circulations. We back wash or clean the filter as the case maybe. A special attention is also paid to the skimmer which transferred the water from the pool to the pump. We are very mindful of the water outlet which supply's water to the pool. It has been our sole responsibility to skim and blush the pool including using Vacuum to brush the area. Balancing water chemical is of highest important.

- Pool pump services
- Backwash and cleaning filter
- Cleaning of skimmer basket
- Angle of the jet
- Pool brushing
- Pool skimming
- Pool vacuum
- Water chemistry

The purpose of your pool is to give you and your family a calm, fun place to spend time and relax. If your pool isn't properly maintained, then it can become a source of stress instead. We'll make it a point of duty on daily or weekly basis to check your pool water pH balance and other tests. We will clean the filter and check for stray debris every time. When these are done properly, your pool will reward you by being a clean oasis that you'll love.

Bravo Qatar uses the Shot-crete method off construction which was developed in the U.S.A to give the best method of constructing swimming pools, SPA, water tanks and domes. The system consists of shooting the concrete through specially designed pump onto the pre-formed forming steel reinforcement. Some of the main advantages of the shot-crete method are that the whole pool is shot in one operation without expansion joints and thus creating a guaranteed waterproof shell. It also allows for a variety of shapes to be obtained very quickly as it is possible to form the concrete shell within 10 days of commencement Bravo Qatar finish its pools with add resistant tiles and coping

---
