BRAVO TRADING & CONTRACTING COMPANY

## INDUSTRIAL WORK & MAINTENANCE SERVICES

Blasting, Painting, MEP, Scaffolding,  
Pipe Fabrication and Manpower Support  
One Stop Solution for Marine & Offshore Services.

# OUR COMPANY

As ISO certified firm, we are focusing on establishing a unique relationship with our clients and esteemed organizations that specialize in the energy and Industrial work sector.

Our primary services are Blasting and Painting, Electrical and Mechanical maintenance, Scaffolding works, Manpower supply, Valves and pipe fabrication. But as a fast-growing firm, we desire to be working at the heart of energy production infrastructures industry for designing, installing, starting up, and maintenance, while ensuring the best possible terms for safety, costs, times, and quality.

## OUR VISION

To provide a proficient, reliable services and products to our customers and become one of the major firms in the construction, Oil and Gas, swimming pool and facility management industry and also by exercising the skill and experience in which we are endowed.

## OUR MISSION

Our primary mission is to design and build a strong relationship with our client's with the aim of retaining businesses and strive to grow our company by providing an efficient service to our customers and supporting the development of the local market.

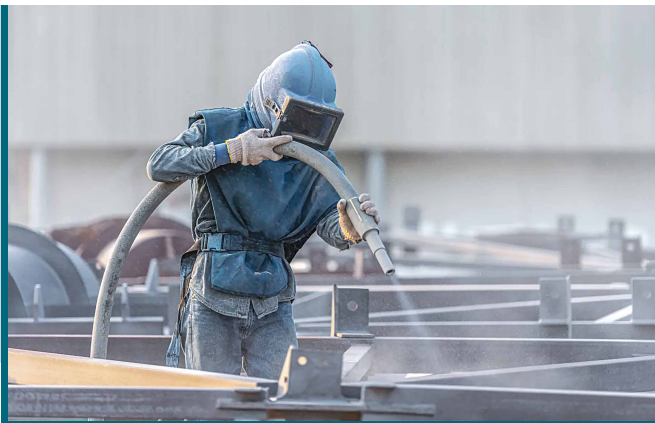

## OUR VALUE

We preside and are committed to the following values: Honesty and integrity, quality control and assurance, safety, reliability, time management, proficiency, project support, and client satisfaction.

# OUR SERVICES

We have more than +5 years of experience working in hazardous environments. Our documented safety plans and confined space procedures are your assurance of our respect and attention to SAFETY FIRST practices. Following procedural guidelines, performing surface preparation thoroughly and applying specialized coatings correctly is something we do very well. We are professionals and well experienced satisfying industrial facility operators, site managers, third-party inspectors within Oil & Gas and petrochemical and Marine sectors.

## ABRASIVE BLASTING

We run a large-scale blasting and painting team composed of highly skilled and experienced Blasters, Painters and helpers that work under the supervision of a highly trained and experienced supervision team composed of site engineer, blasting & painting foreman, HSE specialist using state of the art equipment necessary for Blasting and painting i.e. (Air Compressors, blasting machines, Airless sprayers, High pressure washing machines).

The working site is equipped with dust collection apparatus and abrasive recycling equipment allowing the use of most types of blast media, including silica sand, coal slag and garnet.

We are using a variety of abrasive blast mediums including steel grit, glass bead, copper slag, and garnet. Surface preparation is required prior to any painting materials application in order to remove oil, grease, stratified rust, weld slag, and mill scale.

After your equipment is sandblasted our painters can apply a high performance paint system that will last for years to come and make your surfaces look brand new again.

## HIGH-PERFORMANCE INDUSTRIAL PAINTING

These are also known as protective coatings and are the coatings applied to structural steelwork such as bridges, oil and gas rigs, structures such as stadiums, warehouses, and chemical plants. These coatings are designed to have both high corrosion resistance and also good cosmetic appearance. These coatings will resist adverse weather, corrosive atmospheres, and chemicals and they will provide durability to structures.

In this sector, coatings will have to meet a wide range of requirements through specifications and standards before they can be used. Equally important to their long-term performance is the preparation of the substrate and good application practices.

## SCAFFOLDING

When it comes to multidirectional scaffolding erection, we proud ourselves as one of the professional in the industry both for shipyard, construction site, or industrial facilities which can be used as a façade scaffold, volume scaffold in galleries and shafts, shoring scaffold, staircase tower and mobile scaffold by easily being in compliant with the shape of a structure.

Our team of experts are well trained in safety procedures, and we consider safety as top priority when it comes discharging our obligations on every projects.

## PIPING FABRICATION

Our knowledge is facilitated by the combination of our local labor supported by international expertise.

Our commitment in term of quality, safety, on-time delivery is top-notch. We provide cost-effectively, Engineering, Procurement, Fabrication and, Maintenance services to our clients including offshore and onshore.

Based on our flexibility and our commitment to satisfying our clients, we can provide services in our facilities or away from our home base to be part of their success. On every single project, we develop tailor-made execution plans to satisfy these very demanding sectors.

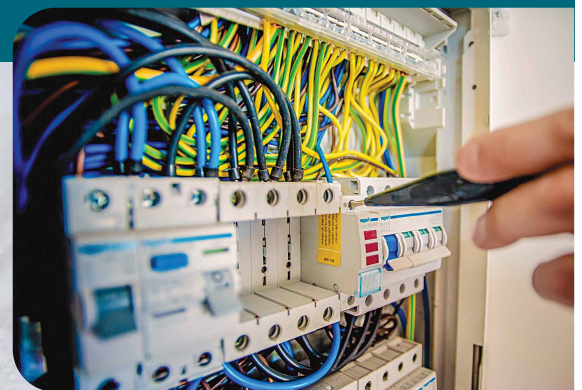

## ELECTRICAL & MECHANICAL MAINTENANCE

We provide an all-round approach to electrical and mechanical maintenance and repair services in the oil and gas sectors. We deliver both reactive and emergency support whenever required.

Our team of professionals do provide advice and maintenance planning to help in preventing problems before they occur.

As your dedicated partner, we are fully committed in keeping your electrical and mechanical systems running smoothly, safely, cost effective and efficiently.

We can deliver a complete maintenance solution that mitigates the threat of downtime and optimizes the performance of your systems and machinery.

## MANPOWER SUPPLY

One of our greatest success is the setting up of a Manpower Supply Division, which has successfully served the needs of the oil and gas industries.

From years we are the partner with numerous companies in Oil & Gas industry and we provided them quality manpower according to their requirements.

Getting the right manpower at right time is a key to success in Oil & Gas industry. We understand that and we provide them experienced and reliable manpower according to your specific needs.

Trained, experienced, and qualified labors for Oil & Gas industry. Fastest turnaround time. 24/7 Support services.

## WE MEET YOUR UNIQUE NEEDS

Our team works closely with you to determine the appropriate process to meet your needs. We have great years of combined experience in the field, with a proven track record of customer satisfaction.

Our processes work with all types of clients to ensure you get the high-quality service you deserve. We can handle jobs up to 60 feet long and quantities from one to thousands, so you can rely on us to tackle any job.
